

Harshit Ranjan

Ranchi, Jharkhand | +91 9060728103 | harshitranjan2003@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

- VIT Bhopal University**
Bachelor of Technology Bioengineering
Cumulative GPA: 7.9/10
Bhopal, MP
Oct, 2022 – 2026
- Delhi Public School**
Std XII from CBSE and scored **90%** in Board Examination
Ranchi, Jharkhand
May 2021
- Delhi Public School**
Std X from CBSE and scored **95.6%** in Board Examination
Ranchi, Jharkhand
March 2019

SKILLS

Programming languages and Technical Skills

- Python
- MATLAB
- AutoCAD
- FIGMA(UI/UX)
- MS Excel & Office
- Alteryx
- SQL
- Power BI

PROFESSIONAL EXPERIENCE

SIEMENS Healthineers - Bengaluru

NOV-JAN 2025

INTERN

- Assisted in calibration optimization and testing of diagnostic imaging systems to improve performance and reliability
- Participated in design enhancement through technical discussions and brainstorming sessions
- Analyzed regulatory standards, identifying 3 compliance gaps and improving adherence by 15%
- Collaborated with a 12-member multidisciplinary team, contributing to performance benchmarks and test outcomes

PROJECTS

Telecom Churn Analytics

Python, XGBoost, GridSearchCV, SHAP, Power BI

- Situation:** High customer churn was affecting retention for a telecom provider.
- Task:** Created a model to classify and visualize at-risk users based on usage behaviour.
- Action:** Processed 7,043 records, trained XGBoost model (86% accuracy), and used SHAP for interpretability. Created Power BI dashboards to present churn insights and segmentation.
- Result:** Enabled data-driven retention strategies; stakeholders simulated a 22% reduction in churn using targeted

Disease Outbreak Prediction System

Python, Random Forest, Streamlit, Folium, KMeans, GeoPandas

- Situation:** Seasonal and terrain-related disease outbreaks in India hindered early diagnosis and public health planning.
- Task:** Build a scalable ML-based web app to predict diseases from symptoms and map outbreak trends across regions.
- Action:** Trained a Random Forest model on 5K+ samples, applied geospatial clustering (k=10) with seasonal/terrain data, and built a Streamlit dashboard with
- Result:** Achieved **87% accuracy across 15+ diseases**, deployed an interactive visualization platform pinpointing **10 high-risk zones**, improving early detection and public health response.

SOFT SKILLS

- Interpersonal Skills
- Critical Thinking
- In depth Research
- Time Management
- Data analysis
- Leadership
- Quick Learning
- Teamwork

LEADERSHIP AND INITIATIVES

- AdVITya (Sports Fest)**
Tech Team Head.
Served as Tech Team Head, owning end-to-end management of match data, analytics, and technology operations while leading team coordination to deliver accurate and timely insights for events for 1500+ participants
VIT Bhopal University
January 2023-2025

CERTIFICATIONS

Applied Machine Learning in Python -University of Michigan [Coursera] – December 2023 ([CERTIFICATE](#))
Python Programming NPTEL Govt. Of India Course July 2024 ([CERTIFICATE](#))
